Every once in a while Georgetown Development likes to let you in on some secrets of the trade-like where do we get our inspiration from? Where do we learn about new products that not only have a good aesthetic but are also environmentally friendly? As a company that strives to use as many recycled and “green” products as possible, it’s important that we keep up-to-date with industry trends and the newest products around.

From the latest in green toilets to insulation, this [article](#) gives homeowners a look into what we’ve got our eye on for your next custom home or home renovation project.

From the attic to the basement, Georgetown Development can help you transform your space into a more luxurious and eco-friendly place to relax, rejuvenate and live!

For more information on how Georgetown Development can help you, please visit www.georgetowndevcorp.com

Happy green building!
